How to access the Signio system on Windows 10

With the new operating system from Microsoft, Windows 10, comes a new internet browser called Edge.
This new browser is not compatible with Signio but the below information will show you
how you can open your Signio with Internet Explorer 11.

① Open the **Windows Edge** Browser:
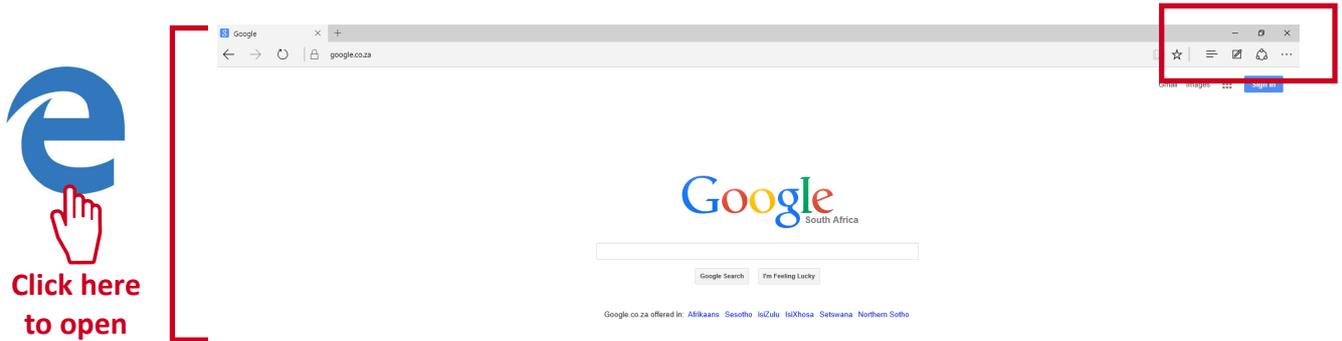

Click here to open

② Click on the **3 dots** to the right top corner:
(As shown above)

Click here to open the drop down below
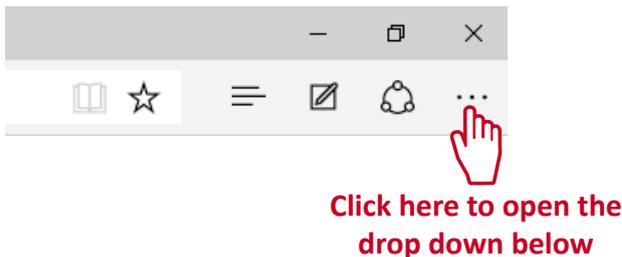

Click on **Open with Internet Explorer**:

- New window
- New InPrivate window
- Zoom — 100% +
- Find on page
- Print
- Pin to Start
- F12 Developer Tools
- **Open with Internet Explorer**
- Send feedback
- Settings
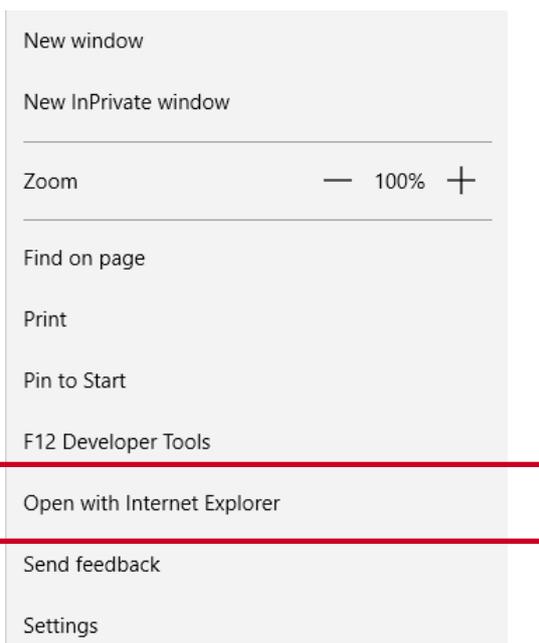

③ In **Internet Explorer** open the **tools tab**:

File Edit View Favorites Tools Help

Click here to open the drop down below
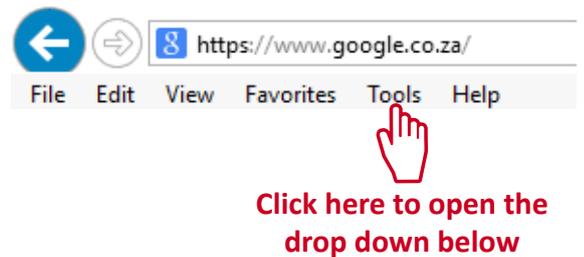

Click on **internet options**:
